Seeking a software developer position that allows me to learn new technologies while utilizing my experience developing Windows and web-based applications.

COMPUTER SKILLS

Languages: C#, ASP.Net, SQL, C, C++, HTML, DHTML, XML, CSS, VBScript, JavaScript,

Databases: MS SQL Server, MS-Access

Operating Systems: Windows XP, Windows NT 4.0, Windows 98

Software: MS Visual Studio/InterDev 6.0

EXPERIENCE

Desperate Developers Software, Mountlake Terrace, WA, March 2003 – Present.

Software Developer/Owner

Develops software, web-based applications and web-services.

- Developed Dorkball, a web based application built to aide fantasy football Commissioners in the management of leagues and team owners in management of teams. The web site keeps league statistics in a MS-Access database. (Further description would be nice)
- Created a web service to convert raw statistics into usable data for the implementation of real time fantasy football scoring.
- Worked with C#, ASP.NET, XML, HTML, T-SQL, and MS-Access within the Visual Studio environment to develop Dorkball and Fantasy Football Real Time Scoring web service.
- Developed Startup Program Manager, a Windows based application used to remove/add programs that start on computer boot. Startup Program Manager utilizes backup and restore functionality to assure users???? Finish.
- Created Deployment projects and help files while developing Startup Program Manager.

Software Tester STE1– Microsoft, Inc. (Volt) 2002

- Black box testing for Microsoft's new internal Order Management System.
- Wrote, edited and executed manual test cases.
- Tested application and web user interfaces.
- Responsible for finding, logging, reporting, and regressing bugs

PC Technician – Keane, Inc. 2000

- Provided technical support for Windows 95/98 users.
- Documented trouble-shooting case notes.

First Class Pilot – Washington State Ferries 1990 – 2000

- Oversaw general management of deck departments, supervision of 12 staff.
- Cross-trained crew to improve confidence and morale.

EDUCATION

Computer Programming – Completed 500+ hours of computer programming in a program recognized for hands on training.

Edmonds Community College, 2001-2002

Computer Science Windows/C++ Specialization Certificate

Microsoft Certified Professional

- Developing and Implementing Web Applications with Microsoft Visual C#™ .NET and Microsoft Visual Studio® .NET
- Developing and Implementing Windows®-based Applications with Microsoft Visual C#™ .NET and Microsoft Visual Studio® .NET
- Designing and Implementing Databases with Microsoft SQL Server™ 2000 Enterprise Edition
